

## **Class Descriptions**

### **Outer Space- the Place for Art!**

#### **Ages 4-6**

**Martian Masterpieces-** How fun it is to create art with Space Exploration in mind? Galaxies, Astronauts, and exciting Spaceships are all possible subjects. A variety of media will be used.

**The Night Sky-** Embark on an artistic journey through the cosmos in this class focused on capturing the beauty and mystery of the night sky. Young artists will create planets, moons, and much more!

**Drawing and Painting Rocket-** Blast off into the world of rockets! Students will practice various drawing skills to create their colorful rockets.

#### **Ages 7+**

**Paper Mache Spaceships-** Come design and construct your very own spaceship in paper mache. This class is great for students who love to build and find new purposes for the materials around them. Students will learn much about design and construction!

**Creative Cosmos-** This class will be working on copies of Chesley Bonestell's influential outer space illustrations. Students will be guided through using tempera, watercolor, and oil pastels to create modern space art!

**Stuffedies in Space-** In this imaginative class, students will learn how to design and make their very own puppets! Using a variety of materials like fabric, yarn, buttons, and sticks, students will create unique puppet characters from scratch. They'll learn basic sewing, gluing, and decorating techniques to bring their puppet ideas to life, from funny faces to whimsical creatures.

**Cartooning: Superheroes in Space-** Welcome to the multiverse! Come create comics based on your favorite superheroes or create your own from another planet in space. Students will learn techniques in drawing, inking, and lettering.

**Star Wars Cartooning-** Create fun comics and comic-style art based on your favorite Star Wars characters. Create a comic page or scene featuring your choice of characters, as you learn techniques in drawing, inking, and lettering. All materials included.

## Ages 10+

**Tile Painting-** In this class students will start building their own tiles out of white clay. Afterwards, they will take time to design their own unique tile paintings. This class is mostly focused on techniques to create building painting on clay using underglazes.

**Out of this World Paper Quilling-** Come quill with us! Quilling is an art form that involves the use of strips of paper that are rolled, shaped, and glued together to create decorative designs. These colorful, dynamic pieces are a show-stopper!

**Stop Motion Alien Edition-** Learn how to make your own stop motion animations! Students will design and create their own articulated paper dolls, props, and storyline to film a short stop motion video. Perfect for budding writers and filmmakers!
